Route Server Origin Communities

For tagging the origin of a prefix we use private communities.

- **65101:** Origin edge device
(see QR code linked website for list)
- **65102:** Origin metro area
- **65103:** Origin country (UN M.49 standard)
- **65104:** Origin continent (UN M.49 standard)

Each prefix is tagged with **all four** origin communities.
