

# Route server origin communities

## Route server informational communities: Origin of prefix

For tagging the origin of a prefix we use private communities.

→ **65101**: Origin edge device (see QR code or linked website for list)

→ **65102**: Origin metro area

→ **65103**: Origin country ([UN M.49 standard](#))

→ **65104**: Origin continent ([UN M.49 standard](#))

Each prefix is tagged with **all four** origin communities.

| Continent       | Country         | Metro Area | BGP Community    |
|-----------------|-----------------|------------|------------------|
| <b>Europe</b>   |                 |            | <b>65104:150</b> |
|                 | <b>Germany</b>  |            | 65103:276        |
|                 |                 | Frankfurt  | 65102:1000       |
|                 |                 | Munich     | 65102:3000       |
|                 |                 | Hamburg    | 65102:4000       |
|                 |                 | Dusseldorf | 65102:9000       |
|                 | <b>France</b>   |            | 65103:250        |
|                 |                 | Marseille  | 65102:6000       |
|                 | <b>Italy</b>    |            | 65103:380        |
|                 |                 | Palermo    | 65102:7000       |
|                 | <b>Spain</b>    |            | 65103:724        |
|                 |                 | Madrid     | 65102:11000      |
|                 | <b>Greece</b>   |            | 65103:300        |
